

lbGis | Special Instructor Program

“

The application of GIS is limited only by the imagination of those who use it.”

Jack dangermond

About Olbgis

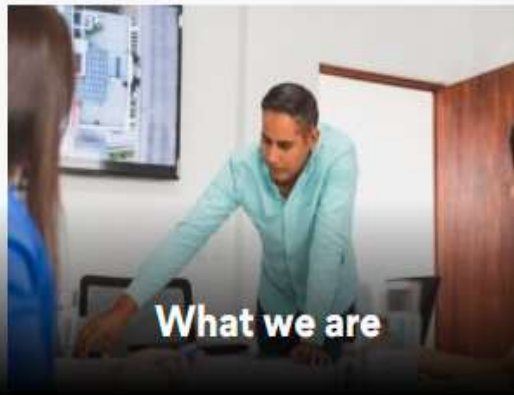

Let's introduce this new platform

About Olbgis

Our mission

Our mission is to provide customers with the first-class GIS consulting services, to be responsive to all our client's GIS needs, which ensure improved business efficiency, increased cost-effectiveness and risks mitigation. We provide clients with a wide range of expertise scaling numerous industries (in innovative GIS based solutions)

What we are

OLBGIS - is a Geographic Information Systems (GIS) consulting startup where scientific knowledge joins the domain of GIS technologies to shape your data and find better solutions for you, your company, your business, and your city.

What we do

OLBGIS provide affordable professional and highly effective GIS solution / consulting services to a wide range of clients that cuts across different divides.

 **lbGis**

1. **Why Olbgis?**

Let's introduce this new platform

Big Opportunity

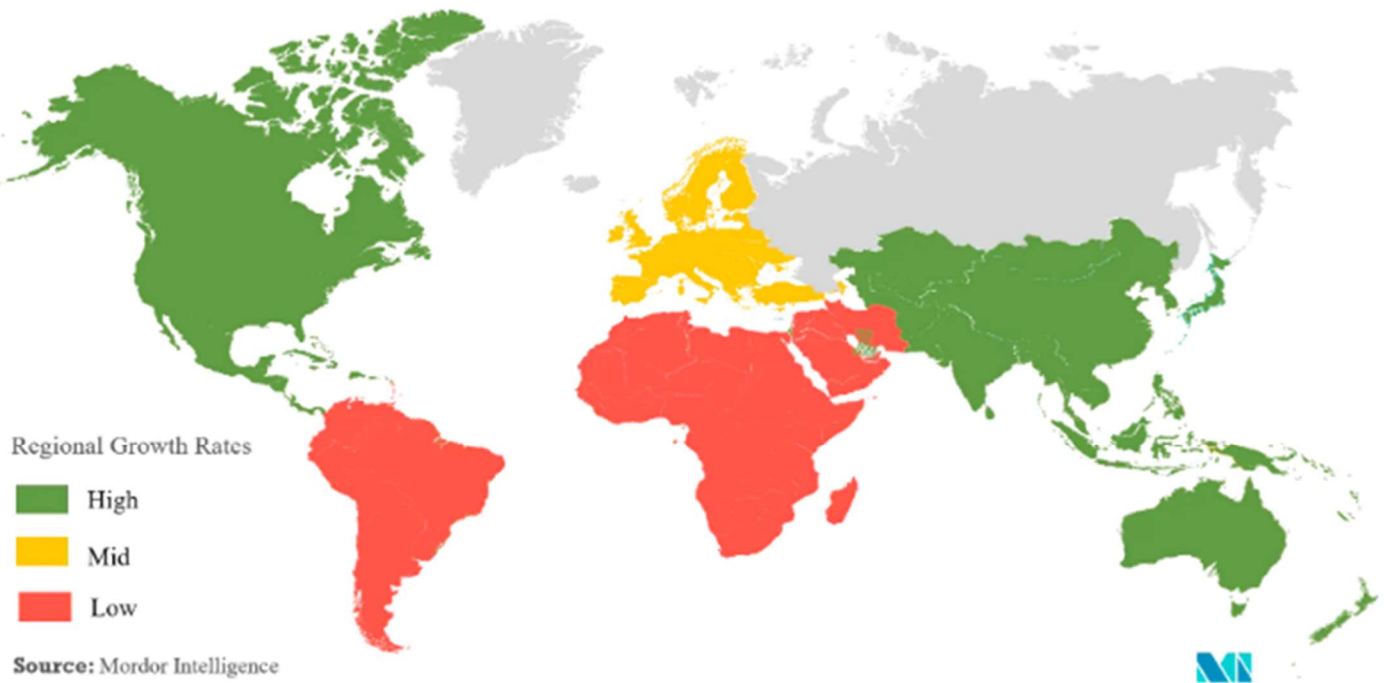

There is a huge opportunity
on the Global GIS market
estimated to \$14,5B by 2025

(source: MarketsandMarkets Research PrivateLtd)

Growth Rate by Region

Geographic Information System Market- Growth Rate by Region (2020 - 2025)

Olbgis is

Olbgis is a global GIS consulting company but it is more than that, it is a Global network of GIS professionals who provide their services remotely through highly selective platform for a best experience of clients.

Maps

The background of the slide features a light blue gradient on the left side, transitioning into a pattern of concentric, semi-circular arcs on the right. These arcs are composed of thin, parallel lines in various shades of blue. Small, solid blue dots are scattered across the arcs, creating a sense of depth and movement, similar to a stylized fingerprint or a digital data visualization.

Benefits of Olbgis Partnership

Olbgis partnership

With our help, you can improve, share, and grow your online learning programs.

Olbgis Partnership process

Benefits of Olbgis partnership

- **Global impact:** an instructor can teach more students in a single course than they might teach in an entire career on campus. For someone who's passionate about their area of expertise and about sharing their ideas with others, this is an incredible opportunity.
- **Global reach:** Olbgis gives many institutions opportunities to establish themselves as leaders in a particular content area, or to reinforce the overall strength of their existing brand.
- **Improving teaching and learning:** Our platform provides analytics on engagement and results across thousands of learners, allowing instructors to see trends that would be invisible in a traditional university classroom that can be used to improve teaching and learning.
- **Revenue:** Our partner receive 45 percent of the cash receipts from learners who pay for Course Certificates associated with a course they teach on Olbgis.

Benefits of Olbgis partnership

- **Many possibilities to extend his expertise at the international level from Our networking events we organize every year.**

The background of the slide features a series of concentric, semi-circular arcs in various shades of blue, ranging from light to dark. Small, solid blue dots are scattered across these arcs, creating a pattern reminiscent of a fingerprint or a stylized globe. The overall aesthetic is clean and modern.

3.

Expectations of Olbgis

Expectations of Olbgis

- **Courses must meet Olbgis's high Quality standard .**
- **Courses must use multi-media content in coherent, high production-value presentation.**
- **Courses should support peer to peer interaction activities as well as new and innovative social collaboration methods**
- **Courses must be taught by a qualified Individual chosen by your Organization (Instructor).**
- **Do not promote via our platform any massive open online course on a platform that is competitive to Olbgis.**

Exclusively

- **Financial Investments : Commit significant financial contributions in return for consortium member benefits and services from Olbgis**

The background of the slide features a series of concentric, semi-circular arcs in various shades of blue, ranging from light to dark. Small, solid blue dots are scattered across these arcs, creating a pattern reminiscent of a fingerprint or a stylized wave. The overall effect is a modern, abstract, and professional aesthetic.
